

FrontFanz

\$FANX
ON  BASE

EXECUTIVE SUMMARY

FrontFanz is undergoing **a strategic launch** on a new blockchain platform, with the objective of enhancing functionality, liquidity, and **overall user experience**. The launch involves Migrating from polygon to the base ecosystem, incorporating **novel mechanisms** for token distribution, liquidity management, and community engagement.

This whitepaper **outlines the financial strategy**, token allocation, and development roadmap for the relaunch, providing transparency and clarity for **all stakeholders**.

1

FUNDING REQUIREMENTS AND ALLOCATION INITIAL RAISE: 30 ETH

To ensure the **successful launch of FrontFanz** on the new platform, we require an initial raise of 30 ETH. The funds will be allocated as follows:

- ★ **10ETHforLiquidity Pool:** Establishing a robust liquidity pool is crucial for ensuring smooth trading and price stability of the FrontFanz token (**FANX**) on decentralized exchanges.
- ★ **10ETHforMarketing:** A significant portion of the raise will be allocated to marketing efforts, which will include strategic promotions, influencer partnerships, and community-building activities to raise awareness and drive adoption.
- ★ **10 ETH for FANX Purchase:** We will acquire 20 million FANX tokens on the Polygon network. These tokens will be distributed to investors during the launch (10m) and rest (10m) after 2 month of listing, ensuring a fair and equitable distribution.

2

TOKEN ALLOCATION STRATEGY

Initial Liquidity Contribution

FrontFanz will allocate **10 million FANX tokens**, sourced from the tokens earmarked for listings, to add initial liquidity to the market. This ensures that the token is readily available for trading, providing a solid foundation for its value.

DEVELOPMENT AND MARKETING FUND

To ensure continuous development and marketing, **FrontFanz will allocate 10 million FANX tokens.** These tokens will be distributed at a rate of 1 million tokens per month, starting from the launch. The funds will be used to **support ongoing development and marketing** efforts, with detailed reports provided to the DAO (initially composed of early investors, and after three months, token holders who acquire NFTs).

TOKEN SWAP MECHANISM

The remaining **60 million FANX tokens** will be allocated for the token swap process, allowing users to exchange their Polygon-based tokens for tokens on the new platform. **The swap will occur over a 10-month period**, starting two months after the creation of the base pool. The swap schedule is as follows:

MONTH 2	▷	1.5 MILLION	○	FANX TOKENS
MONTH 3	▷	2.5 MILLION	○	FANX TOKENS
MONTH 4	▷	3.5 MILLION	○	FANX TOKENS
MONTH 5	▷	4.5 MILLION	○	FANX TOKENS
MONTH 6	▷	5.5 MILLION	○	FANX TOKENS
MONTH 7	▷	6.5 MILLION	○	FANX TOKENS
MONTH 8	▷	7.5 MILLION	○	FANX TOKENS
MONTH 9	▷	8.5 MILLION	○	FANX TOKENS
MONTH 10	▷	9.5 MILLION	○	FANX TOKENS
MONTH 11	▷	10.5 MILLION	○	FANX TOKENS

Users will be able to **send their tokens** from the 15th until the end of each month for the swap. Swaps will be processed on the 15th of each month, with any unswapped tokens returned to the holders
